Residential Land

Development Potential

Suitable parcels of land that are ready to develop are a rare commodity in this current market, however this large block measures 9.66ha (23 acres approx) and with the added bonus of being zoned general residential, development opportunities (STCA) are limited by your imagination.

Relatively flat and offering some cleared areas, this block offers two access points, one off Cherrywood Drive and the other through Albatross Grove. For further information and to obtain a copy of the title contact our office today.
