Sold - \$765,000

House 4 3 2

Beautiful Family Home

This special property is nothing short of stunning. From the moment you drive up the tree lined driveway, you will fall in love with the grand home sitting high on the hill surrounded by established lawn and gardens.

As you walk inside you will immediately appreciate the work the owners have done to create a beautiful family home. The house has been fully renovated and each room is designed with great attention to detail and a classic modern style.

There is ample room for all the family with four very generous bedrooms, three bathrooms and two living areas. The elegant and well-appointed kitchen will impress with its size and it flows seamlessly to the huge dining room on one side and a sitting or family room the other. With underfloor heating in the main bathroom, a wood fire and a ducted zoned reverse-cycled air conditioning the climate will be perfect all year long.

Outside there is a fantastic fire pit and entertaining area and being tucked away on a very large block ensures privacy and seclusion whilst still being in town.

The ambience and perfection of this home needs to be experienced, so be sure to book an inspection.
