

13 Wildfire Ct, Newport, QLD 4020

Sold - 25/10/2021

House 5 3 2

Prestigious waterfront property.

This is an architect designed residence, with 5 bedrooms, 4 bathrooms, a gym, media room and large entertaining area that includes a slate pool table, bar and outside wood fire pizza oven. With its own office you can easily work from home or commute to the city.

The house alone covers over 550sq meters of luxury living and the property is still large enough to provide secluded gardens and a swimming pool. The design is beautifully light and airy and makes the most of the water views and the cooling sea breezes. The guest bedroom has its own bathroom and can be sectioned off to create a live-in maid's quarters or self contained grandparents living area.

With oversized Italian floor tiles throughout the ground floor, a fireplace alongside the pool table and polished wood upstairs, this home is anything but ordinary. The parents retreat on the upper level has its own sitting room and wall of louvres to capture the sea breezes and the uninterrupted views of the water.
