Residential Land

This vacant home site located on the brand new street of Galah Grove, just off Newman Street, is one of the last currently registered blocks of land available along the Mid North Coast. The property enjoys an elevated position within a quiet cul-de-sac. The home-site does come with some cross fall to deal with and an easement along one side boundary. However, with the right design, the end result on this block of land will be a great one.
