House 4 3 3

(SOLD) Oceanside Designer Masterpiece With Spectacular 360 D

A masterpiece of architectural innovation and interior design, 'The Whale House' presents a once-in-a-lifetime opportunity in one of Sydney's most prestigious oceanside enclaves. Rudolffson & Alliker supplied the original architectural plan, which has been reimagined by Virtue Projects to create an even greater sense of seamless indoor/outdoor luxury.

The rooftop terrace takes full advantage of breathtaking 360 degree panoramic views, stretching from the harbor, Bridge, Opera House, Manly and the North Head, all the way around to the expansive blue ocean. Interiors spill onto an array of alfresco spaces, including the saltwater gas heated pool and private landscaped garden.

Expertly crafted throughout with a superb attention to detail, the property's high-end minimalist theme is anchored by stunning in-situ concrete formwork with wood grain detailing. The finest imported European finishes adorn the residence, including premium Italian tiling and custom designed Italian outdoor blinds that perfectly complement the main balcony's orientation.

Further aspects of the layout include a kitchen with Miele appliances and a Liebherr fridge, a fully equipped home cinema, plus a secluded master retreat with a dressing room and immaculate ensuite. It also features a new generation Control4 system, ducted a/c, streamlined integrated storage, heated flooring in the bathrooms, sauna, automated garage with a turntable plus an internal lift.
