House 4 2 2

LARGE HOME, 1/2 ACRE, AWESOME VIEWS & 2 TITLES

Check out my floorplan!!! I have got 4 living areas, 4 bedrooms plus study, 2 bathrooms, views to die for and 2 titles!!! Options options options!

This Queenslander is full of surprises, from polished timber floors to ceiling fans, A/C and most importantly, room for your family to relax.

The large open plan kitchen with its huge breakfast bar, butler's pantry, modern conveniences, and the fact that the chef has the chance to interact with family and friends whilst cooking is underway. This area is the heart of this home.

The first separate living /media room off the large open plan dining area is where you could all meet for movie night and the between the two kiddies' bedrooms there is their own play area. Then off the side of the house is another (yet to be renovated) area that could suit a multitude of options.

All the bedrooms are great sizes and have either built in wardrobes, ceiling fans or both. The Master bedroom has the all-important en-suite.

Sit back and chill relax on the enormous deck out the front in all year around and take in the surrounding views.

The home has bits and pieces that need to be finished off to make it truly an outstanding home, but the owners are realistic.

There are 2 titles on this property, with a bit of realignment - it could really be a bit of a money maker, Only minutes away from Laidley township with all its amenities. There is something for everyone here and come to view to see what I mean.
