Flawless design + due north views across Whale Beach

With sun-drenched north views running the entire span of Whale Beach to the Central Coast, this extraordinary residence is everything one could possibly desire in a beach house, and then some. Vast expanses of glass, gleaming Blackbutt floors and 3.8m vaulted ceilings create the architectural frame, yet it's the warm tones and richly textured interiors that really set the home apart. While the main living space is grand, it's also intimate and relaxed, luxurious and private.
