Open for Inspection

By Appointment.

This has to be one of the best listings to hit the market in 2021 and its sitting on a whopping 2021m2 block with a natural spring, amazing gardens and privacy assured.

With a large street presence this unique home will entice you in to begin exploring and discovering what is sure to steal your heart.

The main home itself boasts four bedrooms, three on the upper level and one on the lower level with internal stairs connecting both levels beautifully.

The home was architecturally designed and features 100 year old cedar doors, timber cathedral ceilings, and slate floors to the main lounge and stunning leadlight to the main entrance and laundry doors.

There is a large lounge room on offer plus a working double fireplace, French doors to all living areas plus a shower and toilet on the lower level plus a tastefully renovated main bathroom on the upper level.

The new kitchen is one of my favourites and is finished in timeless semi-gloss black cabinets with thick Caesar stone benches, an industrial sized oven and a striking tiled splash back.

The entire home features a full wrap-around veranda plus a covered outdoor entertaining area that overlooks the entire block.
