The apartment has an open plan layout with lounge/dining area with carpets extending through the property living area and bedrooms. There is a modern kitchen that is in very good order and includes a built-in pantry, along with an internal laundry and renovated bathroom with the shower over the bath.

The property has a lock up garage that will take most vehicles due to the height and width and still leaves room for storage.

The block is very well maintained and the strata is in a very sound financial position.
