You can really tell the owners took great pride in this picturesque brick home, its wide frontage retained by stylish stones and its lush, immaculate gardens well established. A wonderful buy for tradies or horticulturalists, it features a large double garage that leads straight to a big, fully powered shed in the beautiful backyard.

The cute front porch is a serene hideaway in itself with stone tiles, garden surrounds and a water feature at its centre making it just perfect for enjoying your morning cuppa.

The comfortable interior is flawless, with multiple areas in which to entertain or relax. It includes a sprawling carpeted lounge with ceiling fans and downlights which connects out to a massive, tiled dining area.

Beside the well-equipped, modern kitchen, the dining area is ideal for family festivities or dinner parties and features a handy study nook nearby with built-in desk and storage.

The huge modern kitchen has a pleasing neutral colour palette and an abundance of counter space for easy meal prep. It also boasts a lengthy breakfast bar for casual entertaining or meals on the go and includes a dishwasher and huge oven. The tiled family lounge sits across it and is air conditioned for year-round comfort and complete with sparkling downlights overhead.

From here, sliding doors reveal yet more entertaining space out on the sprawling paved patio. With views of the low maintenance gardens, it boasts tonnes of space for hosting barbecues or garden parties and is further benefited by a built-in barbecue and exhaust fan. Around the corner, the partially fenced backyard is dotted by magnificent gardens, the expanse of lawn great for playing with the kids.
