Open for Inspection

By Appointment.

This home is presented in mint condition with fresh internal paint, brand new carpets and brand new blinds.

From the street you would have no idea just how big this home truly is and 9ft ceilings are a standout feature.

Crim safe security screens complement the Master bedrooms louvered windows and adds to the sleek street appeal.

Inside you will find a generous master bedroom with ensuite and walk-in robe for parents plus air-conditioning.

Moving down the long hallway you will find a carpeted lounge room that opens out onto the Alfresco area of the home that is both private and practical.

The kitchen is the next feature to capture your attention with an abundance of storage space, a breakfast bar and a spot for the dishwasher.

The remaining 3 bedrooms are all oversized and have built-in robes and ceiling fans. All 3 bedrooms are serviced by the big main bathroom with separate bath and shower for younger family members.

This home also has a real laundry not just one stuck at the back of the garage like most homes these days.

Wide glass doors open from the tiled family room and provide a second access point to the Alfresco outdoor area.
