Open for Inspection

By Appointment.

Currently tenanted at \$435 per week to great tenants that would like to stay on, it's perfect for the person that wants to come down and stay for the weekend but aren't looking to live in it permanently at this stage, as it has an area downstairs which is completely separate with its own bathroom for you to stay in.

Backing onto some bush reserve it gives the property a definite feeling of privacy and the banana plants make you feel you could be in the tropics. Still, it's close enough to walk to the shops and club and the cul-de-sac street means no busy traffic up and down your street.

This could be exactly what you're looking for. Inspection by open home only at this stage.
