Open for Inspection

By Appointment.

This home has to be seen to be believed!

It will blow you away with the amount of extras and added features it offers and I can only imagine how much it would cost to build the house and sheds in today's climate.

The home itself boasts a massive floor plan that showcases a tiled formal lounge room, massive family and meals room and a separate media room or rumpus.

There are four bedrooms with the master featuring a walk-in robe and an updated ensuite and the three remaining bedrooms are serviced by the main bathroom with separate toilet.

The kitchen has been revamped with stone overlays added to the bench tops and a corner pantry.

A large door opens out onto the first of many covered outdoor entertaining areas and there is a gigantic 4 car carport attached to the home with enough lighting to light up a football field.
