Suburb Snapshot

It's one of the closest suburbs to the CBD but you could easily not know Aranda exists. Hidden in a leafy pocket at the foot of Black Mountain, living here means you can enjoy all the luxuries of urban living but feel like you're miles away from anything.

The once-derelict Aranda shops are now a bustling community with a coffee roastery, cafe, bar and a boutique gift shop, or it's not far to the Jamison Shopping Centre at Macquarie.

With easy access to the city and Belconnen, excellent facilities, parks and good quality schools, Aranda is home to many established families but younger couples enjoy the lifestyle too.
