Manufacturing Business Ulladulla

Conveniently located in the heart of the industrial hub of Ulladulla on the South Coast, the business currently services the Ulladulla, Batemans Bay and Nowra regions.

The business is highly regarded for their quality workmanship and exceptional results.

This business is being run as a semi-managed business with key experienced staff in place.

Systems and procedures are in place to allow day-to-day operations with little input from the current owner.

Ideal for a family business, either skilled or willing to just manage, as key staff are in place. While the owner does not have to come from a trade, trades experience in the building sector would be an ideal purchaser for the business.

The business is being sold with a well-maintained fleet of vehicles, all factory machinery, tools & equipment.

Contact Paul McDonald for more information.
