A central courtyard with floor to ceiling glass provides loads of natural sunlight into the home and 2 separate living areas allow space for the family to relax comfortably. A separate powder room is an added bonus to complete the downstairs layout.

The kitchen is central and services both the internal dining and the external entertaining areas, from the extensive stone topped island bench. Your 600 wide gas cooktop, dishwasher and very generous cupboard and bench space makes entertaining easy. Watch the kids swim from the comfort of the huge, north facing wrap around deck.
