By Appointment.

Welcome to your stunning new home located close to everything, in the beautiful suburb of North Ipswich. This absolutely gorgeous property oozes with street appeal and will certainly attract buyers with it's untouched period features such as coloured glass windows, and high ceilings.

Showcased in the upper level of this floorplan are two spacious bedrooms that offer more than enough space for a wardrobe if required. Buyers will love that one bedroom includes an air-con, whilst the other includes a ceiling fan. The gorgeous main bathroom located between both bedrooms enables easy access for both household members and guests.

You will also be greeted to an awesome sized sunroom that can easily be converted into a third bedroom if desired. Central to the home is a beautiful lounge room complete with an air-conditioning unit, ceiling fan and lovely high ceilings.

The eat-in kitchen is perfect for the cook of the home as it offers plenty of bench and cupboard space.

Also located on this level is definitely the standout feature of this property. There is a massive outdoor covered deck with rich timber flooring, that provides you with more than enough space to entertain guests or just relax and enjoy the breeze. This area must be seen to truly appreciate how big it is.

Downstairs via external access is the laundry, an additional toilet, double tandem carport, single garage and heaps of under house storage. It will be up to you how you would like to use this massive space.
