Open for Inspection

By Appointment.

Get ready to discover your stunning new home nestled on a large 1000m2 block high on the hill in sought after Deebling Heights.

With a beautiful street appeal, 5kw's of solar, ducted air-conditioning throughout and so much more, this G&P built home will be sure to impress.

Showcased in this spacious floorplan is a large tiled formal entrance, four great sized carpeted bedrooms, plus a double garage and a double carport.

Parents will appreciate the sheer size of the master bedroom and its stylish ensuite, this large room has to be one of the largest main bedrooms in this price range.

Positioned between three of the four bedrooms you will also find the immaculate main bathroom of the home providing guests and younger family members easy access.

The fourth bedroom of the home is creatively located to the front of the home and boasts its own private balcony making it ultra-appealing to adult children or elderly parents who come to stay.

The kitchen of the home is like brand new and has only just had its protective plastic overlay removed for photos (the benches literally have no marks and have been protected from spills and scratches since the home was purchased).
