Enjoying an elevated position in an exclusive cul-de-sac, this tri-level residence captures both sweeping ocean views and cooling sea breezes. White terrazzo flooring blends with crisp white walls and warm Blackbutt wood accents to create perfect tonal balance. Impressively high ceilings, skylights, soaring wood panelled walls and stunning VJ panelled cabinetry provide an architectural feast from all angles. All walls and doors on the main living level open to create a seamless indoor and outdoor living experience complete with a family sized pool, an ocean facing terrace and barbecue entertainment area.

Airconditioning and ceiling fans are ready to take over on the rare evenings that the ocean breeze is still. Sleep at night with the roar of the ocean in the background as the beautiful sea breeze filters through all bedrooms. The master-suite deck is an ideal venue for whale watching and a sun drenched morning coffee.

With Sunshine Beach access being an easy 2 minute walk via a gorgeous nature reserve, days will be spent in the ocean and lying on warm sand. An impressive outdoor shower ensures the beach stays outside or head up the external stairs to jump straight into the pool. Step directly into a warm shower from the pool area thanks to the cleverly designed bathroom on this level.

This easy live-in or lock-up-and-leave home provides a stunning galley kitchen with all new appliances, over-sized living area, ample storage, three beautiful bedrooms, three full-size bathrooms plus a double lock-up garage and oversized laundry.

Space, light and views. All renovated. All new.
