This prime block of land has just come on the market. Located in a very up and coming area , at 612m2 it is larger than the average block , fully cleared with power and water running down the street. The great advantage to this block is if you build 2 stories you will have outstanding views of the water all the way to redland bay. A quick 5 minute drive and you back at the ferry terminal and the shopping hub of russell island.
