Dampier Terrace Office or Retail?

This newly renovated space on Dampier Terrace close to Streeter's Jetty is ready to lease. This Chinatown location will be ideal for a professional office or high-end retail space. Currently configured as an open plan area, the space can easily be modified to create a reception area and private office space behind. Alternatively, this would be ideal for retail with an abundance of floor and wall space. The property comes with a small kitchenette, its own internal washroom together with security doors and window screens.
