## Communications Sales and Service Business

Bundaberg regions leading radio communications business presents a wonderful opportunity for entrepreneur or electronics enthusiast to turn their passion into a professional career. Positioned on one of Bundaberg's main thoroughfares, this high profile location offers customer convenience and room to expand this already thriving business.

**Open for Inspection**

By Appointment.

Bundaberg Electronics has been servicing the region for over 30 years. Offering a wide range of products and services. During this time the business has developed loyal patronage from local businesses small and large. Offering specialised services in a niche market, local businesses have come to rely on Bundaberg Electronics as a trusted business partner.

Bundaberg Electronics core business is commercial two-way radio. Services include maintaining a private two-way radio network with 3 strategically positioned towers for coverage across the region. Subscribers have access to unlimited and private voice communication via in-vehicle and hand-held and base station radios. Subscribers to this network require the supply, installation and maintenance of the radio equipment.

Amateur and public radio users also rely Bundaberg Electronics for the supply, installation and maintenance of their radio equipment.

In addition to these services, the business currently supplies and installs a range of 12 volt equipment such as solar power and inverters for caravans and campers.

The business currently employs a technician responsible for field service work, in house equipment installations and repairs. The technician is supported by a front counter operator who handles inbound inquiries, job scheduling and administration.
