With a regal, almost statuesque presence, you will find this striking home sits far back on its remote cul-de-sac where countless other majestic homes of equal calibre can be found. Lined by sturdy rendered fencing, access can be gained to the grounds from a secure pedestrian gate at the front or the electric gate over the long driveway.

Once within the private confines of this immaculate property with sprawling lawns, you will find four separate garages, a drive through carport, as well as the grand porte-cochere, allowing for 6 car accommodation in total.

Beautifully radiant and pristinely rendered, the spectacular portico with towering pillars and a decadent arched window is an extravagant welcome to you and your guests. Once inside, you'll find a breathtaking tiled foyer drenched in light, and accentuated by a stunning curved staircase with mezzanine and shimmering chandelier above.

Your new lifestyle of decadent parties and refined entertaining starts on the left with a formal, tiled lounge and separate dining room that are richly decorated with sumptuous curtains, glistening pendant lights and divine ceiling roses. A tiled dining area and casual family lounge sit at the rear of the home - perfect for relaxed downtime.

This sprawling, open-plan area with air conditioner and sophisticated arched doorways overlooks the gourmet kitchen with lengthy breakfast bar. Here, sleek granite benchtops, an abundance of glossy, 2 pak cabinetry, and quality European appliances bestow on you all the required essentials to wine and dine guests or cook up a gastronomic feast for loved ones.

This of course flows out to the luxurious wrap-around patio where endless space allows you to take full advantage at your next garden party. There is also a generous pergola with sink which overlooks the tranquil in-ground pool, ideal for your weekend barbecues or summer gatherings. It is surrounded by lush, mature landscaping, sprawling lawns for children or pets to relish, and plenty of established fruit trees to stock your kitchen.
