## Architectural masterpiece with unrivalled views

The unassuming façade of this residence conceals an architectural masterpiece with unrivalled, due north views across the entire sweep of Palm Beach to the Central Coast. Created by Gartner Trovato, the home spans three exquisite levels that erase the distinction between indoors and out with a polished and innovative design; the layout is matched by elegant entertaining options including an entire mezzanine level with tiled indoor pool and steam room, several lounges, sun-drenched terraces and those extraordinary views from every vantage point.
